

Huawei ICT Competition Poland 2021

Huawei ICT Competition is a global campaign, with the theme of "Connection, Glory, Future", the purpose of Huawei ICT Competition is to promote the cultivation, growth, and employment of ICT young professionals from universities and colleges, helping the ICT talent ecosystem thrive.

By cooperating with Technical University of Poznan, we will organize the 2nd Huawei ICT Competition Poland in Poznan on 23rd of November. This year, we expect to have over 200 talented students from 6 universities and 1 technical school to join us in the final competition, the students with outstanding performance will be awarded with Huawei Career Certificate and special prize, as well as the chance to participate the Global Final Competition in China in 2022.

Meanwhile, to bridge the academia and ICT industry, there will be also representatives from PCSS, Volkswagen Poznan and INEA to share their experience in industry digital transformation and advanced practices in AI, industry 4.0, next generation broadband network etc.
